

Career Summary

Dedicated and result-oriented frontend engineer with over 2 years of experience in developing scalable, high-performance web applications. Specialized in designing efficient project architectures, creating reusable libraries, and enhancing code quality. Proven leadership skills as a team lead and mentor, with a strong focus on clean code and modern web technologies.

Work Experience

SFERA IT SOLUTIONS - Frontend Developer **april 2023 ? January 2024**

- Developed and maintained scalable web applications with reusable components and optimized architecture.
- Ensured high code quality by implementing reusable libraries and components. - Collaborated with cross-functional teams to deliver high-quality software solutions.

SFERA IT SOLUTIONS - Team Lead **January 2024 ? Present**

- Led a team of 5 developers, ensuring timely delivery of projects and maintaining high development standards.
- Conducted code reviews, enforced best practices, and optimized project workflows.
- Improved team collaboration through regular meetings and feedback sessions.

SFERA IT ACADEMY - Frontend Mentor **January 2024 ? Present**

- Mentored over 50 students and junior developers on advanced JavaScript, React.js, and state management.
- Delivered hands-on training sessions on component-based architecture and clean code practices.
- Encouraged a self-learning approach, resulting in improved student engagement and understanding.

Relevant Projects

QR Pay **August 2024 ? October 2024**

- Developed a cross-platform payment solution with iOS, Android apps, and a web dashboard.
- Enabled users to convert foreign currency into Uzbek soums via QR codes for seamless transactions.
- Result: Successfully launched, processing over 1,000 transactions in the first month.

Bookers **May 2024 ? July 2024**

- Created a mobile app and admin dashboard for booking services at nearby hair salons.
- Result: Successful launch, over 100 active users in the first month. Currently working on a second version with enhanced functionality and design.

GSR Logistics **September 2023 ? November 2023**

- Designed and implemented a logistics management platform for monitoring and optimizing cargo transportation.
- Delivered a functional solution across three platforms from initial testing to production.
